Coolidge Corner Merchant Association

The Coolidge Corner Merchant Association is a non-profit organization whose mission is to "enhance the quality of life and business atmosphere of the neighborhood" and "to market Coolidge Corner as a vibrant, unique and exciting place to shop..." (quoted from the Coolidge Corner Merchant Association Mission Statement 2000). Issues of interest to all area business owners are discussed. Agenda items may range from planning sidewalk sales to discussing policies on philanthropy.

Washington Square Merchant Association

The WSMA is the oldest Merchant Association in Brookline. It's mission is to give back to the community. In the past, they have sponsored neighborhood improvements including the installation of an 18 foot 4-sided Victorian Clock (at the MBTA station), benches, flowering planters on sidewalks, and additional garden areas in the center of the square. Events sponsored by the Washington Square Merchant Association have included street fairs and "get to know us" activities with gift drawings, free entertainment and refreshments.
